## **DETAILED ACTION**

### ***Response to Amendment***

In response to the amendment filed 1/13/2004, claims 31 and 33 are amended, and claims 36 and 40 are cancelled. Claims 16, 18-19, 21-22, 24-26, 28-29, 31, 33-35, 37-39, and 41-42 are pending.

### ***Terminal Disclaimer***

The terminal disclaimer filed on 1/13/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of either US Patent No. 6,597,823, or US Patent No. 6,480,640 has been reviewed and is accepted. The terminal disclaimer has been recorded. As a result, the prior double patenting rejections based on these references have been withdrawn.

### ***Allowable Subject Matter***

Claims 16, 18-19, 21-22, 24-26, 28-29, 31, 33-35, 37-39, and 41-42 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding claim 16, there is not taught or disclosed in the prior art a laser device including a spot sized converter as claimed where a semiconductor laser region and a semiconductor layer are integrally formed as one unit on a substrate so that light emits from the laser through the semiconductor layer, said semiconductor layer having a GRIN refractive index so that the refractive index varies in a layer direction, changing the spot size of light emitting from the semiconductor laser through the semiconductor layer with this varying refractive index.

Art Unit: 2828

Regarding claims 31 and 33, there is not taught or disclosed in the prior art a laser device including a spot sized converter as claimed where a semiconductor laser region and waveguide region are integrally formed as one unit on a substrate, and a semiconductor layer is buried at the interface between these two regions, the semiconductor layer having either a constant refractive index or a refractive index varying continuously in a layer direction or varied step wise.

A number of US Patents disclose these features, however the terminal disclaimers filed during the prosecution of this application have obviated their use as prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
